Career Objective

Aspiring Software Engineer with a strong foundation in programming, Data Structures, and full-stack web development. Looking for an opportunity to contribute to challenging software projects while expanding my expertise in application development, and enterprise platforms such as ServiceNow. Committed to continuous learning and professional growth.

Skills

- **Programming languages:** C, Java, Python, JavaScript, SQL
- **Web technologies:** HTML, CSS, Tailwind CSS, React.js, Express.js
- **Database:** MySQL, Mongo DB
- **Tools:** ServiceNow, MS Office, Weka
- **Relevant coursework:** Data structures, Object oriented Programming through Java, Operating Systems, Database Management Systems, Cloud Computing, Cryptography, Computer Networks

Projects

Employee Onboarding Management System using ServiceNow

Developed a ServiceNow application to automate the employee onboarding process using custom tables, Record Producers, Flow Designer, approval workflows, Business Rules, notifications, reports, dashboards, and role-based security (ACLs). The application streamlines onboarding by automatically creating and tracking IT and HR tasks until completion.

CouKart - A marketplace for selling and buying coupons

Designed and developed a MERN-based coupon marketplace that facilitates secure buying and selling of unused coupons. Implemented authentication, CRUD operations, search, category filtering, and responsive user interfaces. Integrated MongoDB for efficient data management and built a modular, scalable application using reusable React components.

Education

B.Tech - computer science and engineering

09/2023 – present

- Velagapudi Ramakrishna Siddhartha Engineering College, CGPA - 8.69

Intermediate

08/2020 – 05/2022

- Sri Chaitanya Junior College, Percentage - 92.0

Certificates

Certified System Administrator
Servicenow

AWS cloud foundations
AWS academy

Java programming fundamentals
Infosys springboard

Workshops and Hackathons

SWEEYAM Hackathon (Runner up), SRM University, AP

Developer conference, SRM University, AP

Design Thinking Workshop, VRSEC

GDG solution challenge Hackathon (winner), Google Developer Groups (GDG)-VRSEC

Co-curricular Activities

Organized Microsoft Learn Student Club events.
